

Dear Joseph Flescher:

VoteWater.org is pleased to endorse your primary campaign for Indian River County Commission, District 2.

Florida's water crisis is ultimately a political problem, requiring a political solution. And that's where you come in: VoteWater is endorsing you because we believe you're part of the solution. For too long, Florida's elected leaders have ignored or minimized the problems facing our waterways.

We need clean water champions now more than ever.

As soon as possible, please respond to this email with a digital photo/headshot of yourself and a statement from you/your campaign as to the importance of clean water and your role in achieving it.

Digital advertising for our 2022 Primary Voter Guide, hosted on our website at VoteWater.org, will begin in early August and continue through the Aug. 23 primary. Should you win and face opposition this fall, we will again rate you for our 2022 General Election Voting Guide, to be issued later this year.

Please note an endorsement in the primary does not guarantee an endorsement in the general election.

Thanks for your commitment to cleaner water. And good luck in your campaign!

Gil Smart  
Executive Director
